

Shoe Box Archeology

Direction: You are to create an archeological dig site in a shoebox about YOUR LIFE!!! You will use 6 items from your life that symbolize something significant about yourself (ex. You could put a small keychain basketball to show you love basketball). You will divide each layer of items with a piece of brown construction paper symbolizing dirt. Eventually the nameless box will be given to another "archeologist" in class and they will investigate your life and make conclusions about what these items say about you. In the lines below please write down your items and what you hope they symbolize.

Full Name: _____

How old are you at the time the box was found?: _____

Where did you grow up? _____

What are your favorite things to do?

1. My first item is _____. For me this symbolizes _____

2. My second item is _____. For me this symbolizes _____

3. My third item is _____. For me this symbolizes _____

Shoe Box Archeology

4. My Fourth Item is _____ . For me this symbolizes _____

5. My Fifth item is _____ . For me this symbolizes _____

6. My 6th and final item is _____ . For me this symbolizes _____

7. State any other things that you would hope an archeologist would conclude about your life that may not be in these items explicitly. _____
